

EURL-Fish training course:

Methods for implementation of surveillance
procedures for listed fish diseases,

11th to 15th October 2021

Introduction to histopathology in fish and
crustacean diseases

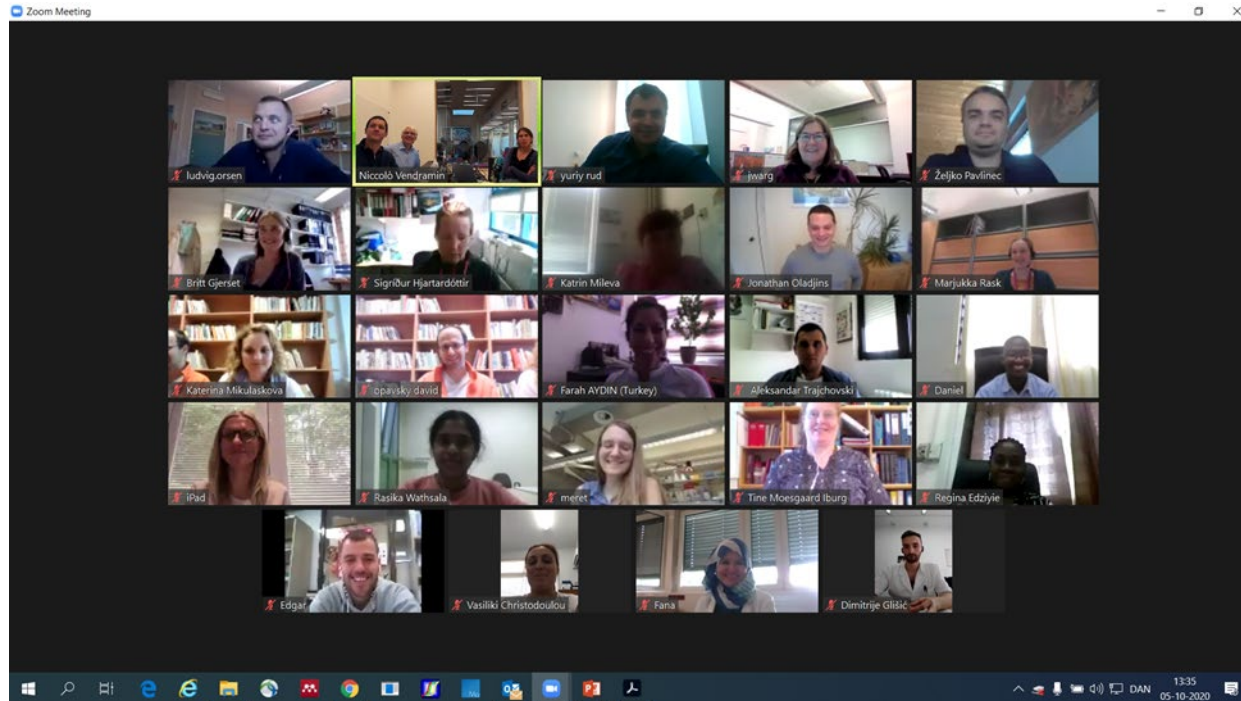

18th to 22nd October 2021

In 2019 we were used to

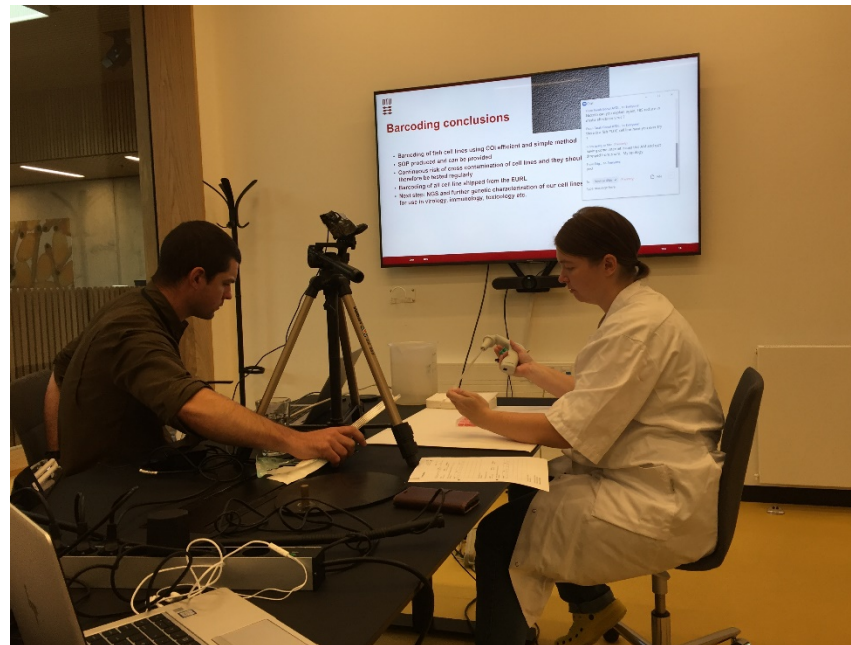

of Denmark

In 2020 we did like this

**Same for 2021 –still
uncertainties on travelling etc.**

Teaching on zoom – a combination of lectures, demonstration live, sharing microscope screen and assignments for the participants to be done in breakout rooms

Training course in 2021

- Organization of training course(s) will necessarily have to deal with development of Covid-19 pandemics
- Still uncertainties on vaccination plans variants etc. so it will be online
- Within June announcement and invitation out
- By August collection of applications
- In early September communication to the participants and programs
- STAY TUNED 😊
