

EURL-Fish training course

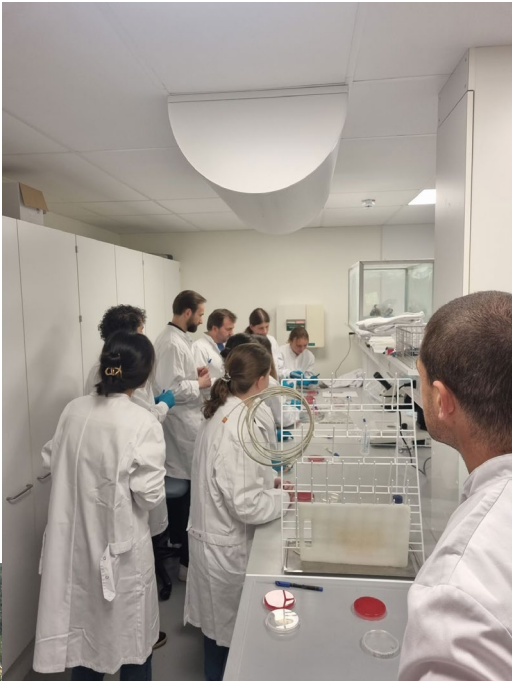

In 2020 and 2021 we did like this

Teaching on zoom – a combination of lectures, demonstration live, sharing microscope screen and assignments for the participants to be done in breakout rooms

In 2022 we get back to in person participation

Training course in 2023/2024

- The workprogram has been amended
- The EURL plans the following events
 - **“Methods for implementation of surveillance procedures for listed fish diseases” in week 41 of 2023 – October 9th to 13th**
 - **Webinar on Aquatic animal health epidemiology in 2024 (DATES TO BE DEFINED)**
 - **Training course on validation of diagnostic methods in 2024 (DATES TO BE DEFINED)**
- Within June announcement and invitation out
- By August collection of applications
- In early September communication to the participants and programs
- STAY TUNED 😊
